What we do during an energy healer rebalancing session

“This is the time for you to shine. This is the time where people will be seeking you out.”

I have so much respect for energy healers that it is not funny! The amount of good work that you guys do is amazing. I have actively seeked out three energy healers in the past ten years or since I have been on this path of self-discovery. In each of those sessions I was “stuck” meaning I did not know which way I should turn.

As an example, I just went to see an energy healer because my path was really getting cloudy. Just when should I do certain things to when will my path clear itself up? She told me that this year would be a year of turmoil for me and the next year would be when things will come together. Needless to say I felt much better after speaking with her.

It is without doubt that energy healers are coming out in droves now. This is the time for you to shine. This is the time where people will be seeking you out.

But having said all the great work that you do for others, you, unfortunately, cannot do it unto yourself. I hate to say it, but most energy healers that I have met are a mess! Emotionally and physically you have a lot of work to do onto yourself. If only you could do unto yourself as you would unto others. But I realize that it does not work that way.

It is for this reason that I am offering our services to you. I have so much respect for the services that you

provide to all of your clients that I only want to help.

Allergy Rebalancing – A four-step process... In the next section, I will describe to YOU the four-step process for alleviating your allergy symptoms. It does not matter what it is that you are allergic to. We are so confident the process works, that we are willing to guarantee the results.

“The testing, the rebalancing and the confirmation!”

Step 1: The testing.

Using a sophisticated computer system, we are able to test you for an infinite variety of items. The information (finger prints) of each item is digitally stored on this computer system. By attaching clips to both hands, the computer is able to send the information about each item to your body. It then records your body’s responses and we print the results. Next it’s on to step 2.

Step 2: Verification.

Based on the results we’ve obtained from step 1, we select from the computer the items to rebalance. After all items have been selected, we imprint a glass vial, filled with water and alcohol, with all of the items. With this vial, we are able to confirm your body’s sensitivity to the items via a simple muscle test. By putting the test vial, let’s say it contains pollens, up against your arm and then holding your ring finger and thumb together tightly (see Figure 1), we will test your allergic reaction to the substance contained in the test vial. In this test, the vial is held up against your forearm and we will try to separate your finger and thumb. If they do separate, then you have an issue with the substance, otherwise, you do not! It’s that simple.

Step 3: The elimination.

Connected to the computer is a special laser pen. We use this laser to transmit the information (finger print) of each item to your body using various acupuncture points. Note that there is no penetration of the skin by our laser. It is a painless procedure and is even safe for children! Also note that your body is doing the rebalancing—we're just the facilitator, helping to get things started and your body does the rest. The entire process takes approximately 15 minutes. Once completed, we go to step 4.

Step 4: The confirmation.

In this step, we repeat step 2. Using the muscle test, your body should now test strong during the re-test. And that's it! The entire process for new clients runs around one and a half to two hours. Returning clients are often 30 to 45 minutes.

“So what are YOU going to do?”

Now that you have the information, what are you planning to do about it? The average person has 40 allergy symptoms with or without them being aware of it. But now that I've given you some indication of what may constitute an allergic reaction perhaps I have done my job and you are aware of it. However, if you want to go one step further and you want to rebalance your body and alleviate your allergy symptoms, you can always find our telephone number by visiting our website at www.noallergiesplease.com.
